

# Acadia National Park - 2022

19 species

Abundance (from point count data)

Positive regressions: 13

# Acadia National Park - 2023

19 species

Abundance (from point count data)

Positive regressions: 14

# Hubbard Brook Experimental Forest - 2022

15 species

Abundance (from point count data)

# Hubbard Brook Experimental Forest - 2023

16 species

Abundance (from point count data)

Positive regressions: 13

# Katahdin Woods and Waters - 2022

10 species

Abundance (from point count data)

Acoustic detections (from acoustic data)

Positive regressions: 10

# Katahdin Woods and Waters - 2023

22 species

Abundance (from point count data)

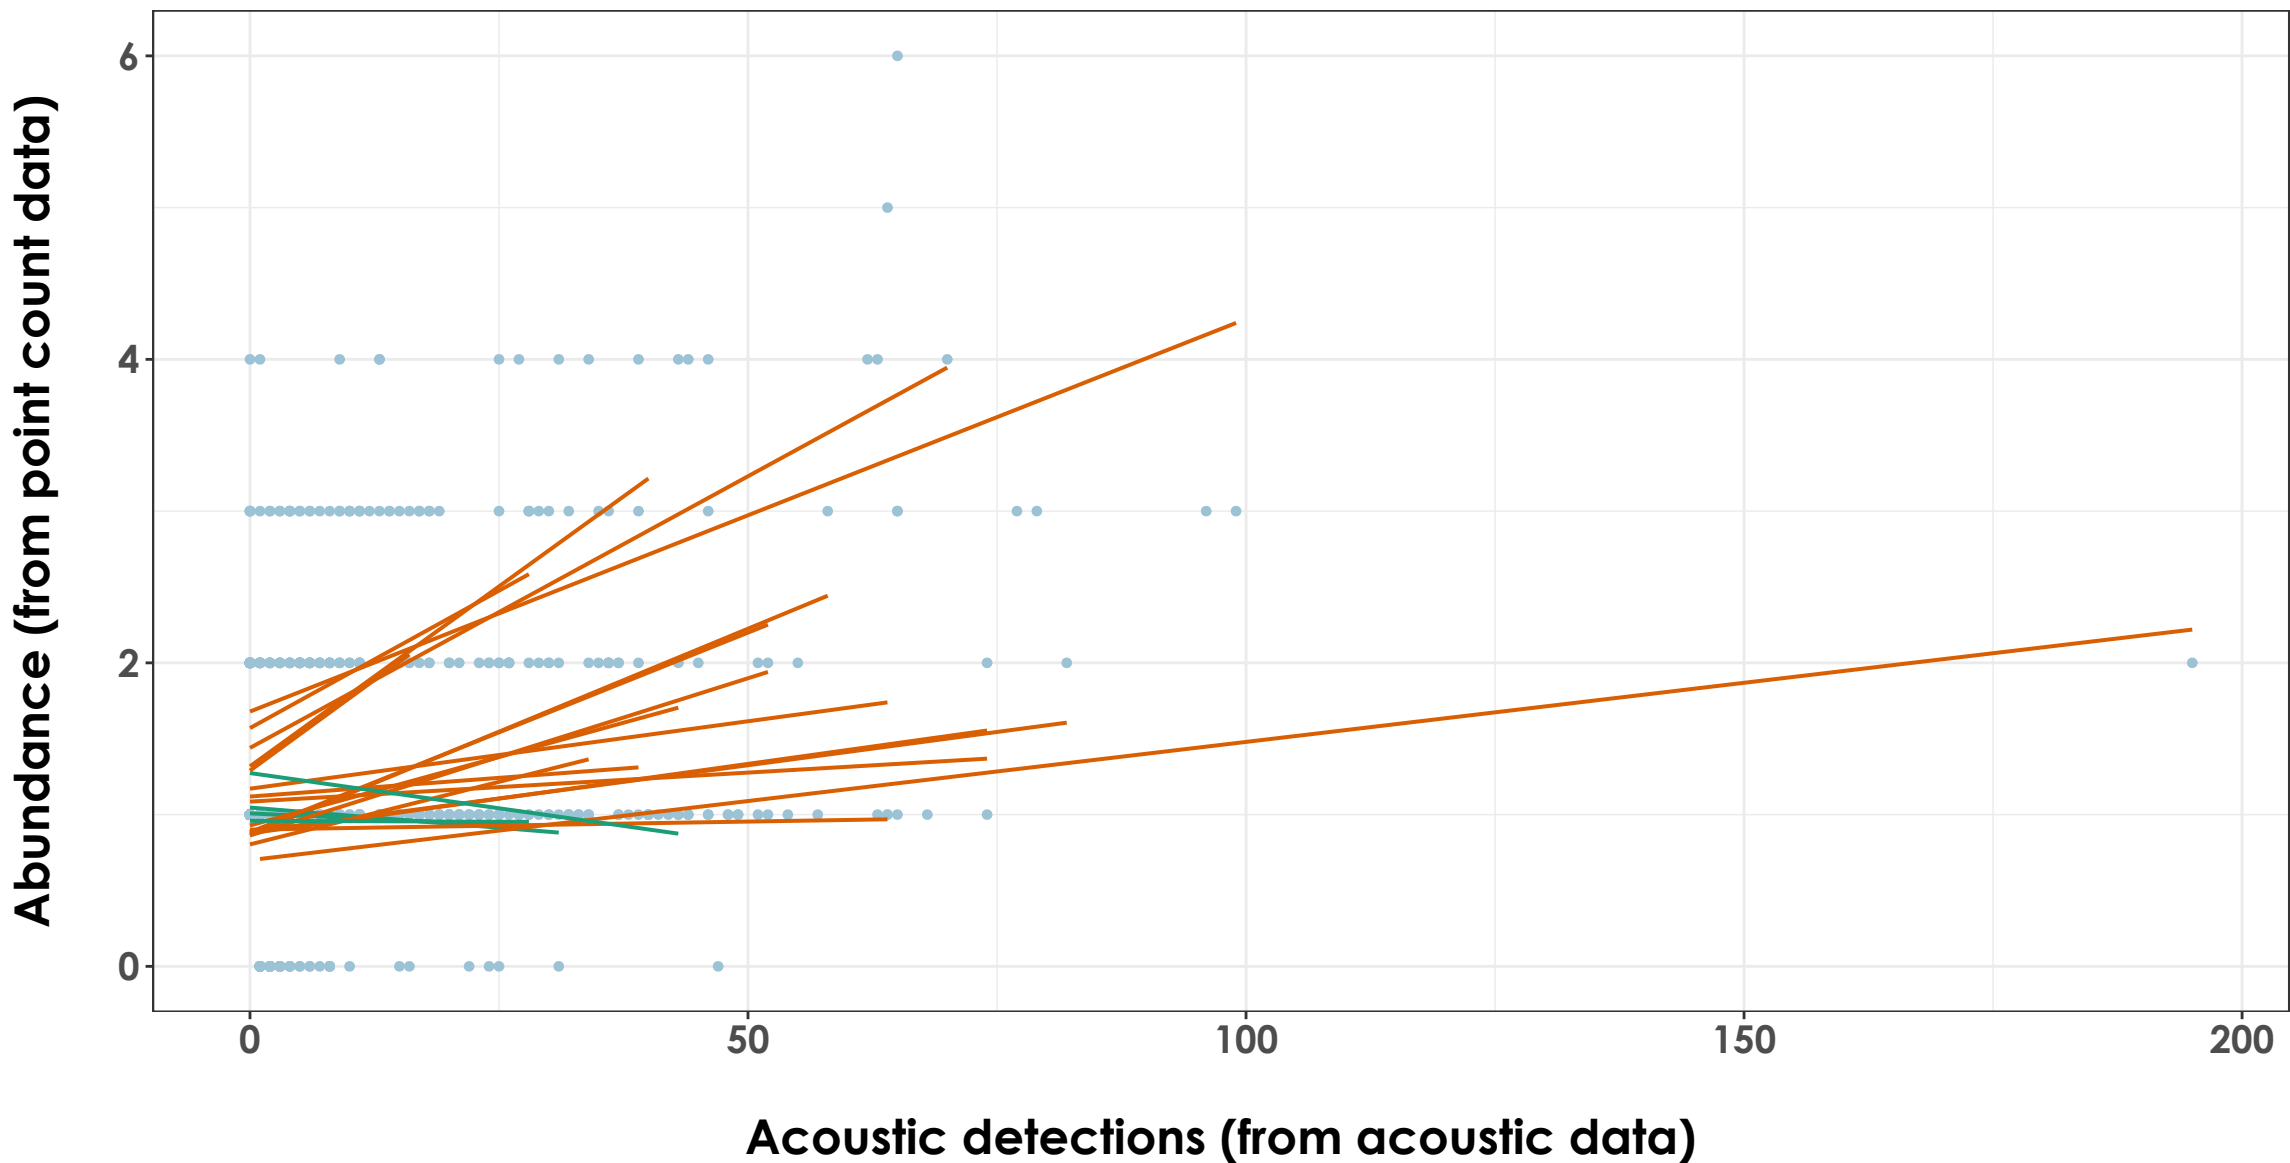

Acoustic detections (from acoustic data)

Positive regressions: 16

# Marsh-Billings-Rockefeller NHP - 2022

21 species

Positive regressions: 17

# Marsh-Billings-Rockefeller NHP - 2023

20 species

Abundance (from point count data)

Positive regressions: 15
